The students are requested to confirm their participation to respective supervisors, and also intimate the time period when they want to undergo the dissertation work/summer training to their supervisors. **Further correspondence, if any, may be made with the respective supervisor.**

Since the Institute is encouraging a large number of students from various universities/departments for training, it will not be possible for the Institute to provide you with the accommodation. **The students have to make their own arrangements for stay, and also the Institute will not provide any sort of financial support to them to carry out their work.**

It is also very important to note that students are not allowed to **carry out analysis of their own samples** on the instruments available in the Institute for dissertation work.

Keeping in view the cost constraints being spent by the Institute in running the various instruments it is a request to all the Supervisors to train the students on **their own samples or on the available data with them** instead of analyzing the samples brought by students with them. The supervisors are requested to strictly adhere to these norms.

Thanking You

Dr. R. K. Sehgal
