Memo No.- GCN/2023/1723

Dated - 24/12/2023

Subject: Request for Implementation of 15 Smart Classrooms.

On the subject cited above, I am writing to bring to your attention a matter of utmost significance that directly impacts the academic environment and, consequently, the overall quality of education in our esteemed institution. As we are well aware, the National Assessment and Accreditation Council (NAAC) accreditation holds paramount importance in assessing the standards of our college. In light of the upcoming accreditation process, it has come to our attention that the integration of modern technological infrastructure can significantly contribute to enhancing the overall learning experience for our students and contribute positively to the accreditation outcome.

I am hereby requesting the provision of fifteen smart classrooms within our college premises to align with the contemporary educational requirements. These smart classrooms, equipped with state-of-the-art audio-visual aids, interactive whiteboards, and other modern learning tools, would not only meet the standards set by NAAC but also elevate the quality of education we offer. The advantages of smart classrooms are evident in their ability to engage students, facilitate interactive learning, and encourage collaborative problem-solving. Furthermore, such facilities are in line with the technological advancements that are becoming increasingly integral to educational methodologies.

The implementation of smart classrooms will not only reflect positively in our NAAC accreditation but also contribute to attracting prospective students and faculty. It is an investment in the future of our institution, ensuring that we remain at the forefront of providing a holistic and contemporary education.

I kindly request you to consider this proposal earnestly and allocate the necessary resources to implement smart classrooms in our college at the earliest convenience. Your support in this matter will undoubtedly contribute to the continued success and growth of our institution.

Thank you for your time and consideration. I look forward to a positive response.

Sincerely,

(Principal)

Memo No. GCN/2024/884

Dated: 11/05/2024

Sub.: Request for urgent renovation of college building.

Kindly refer the subject cited above. On the subject cited above, I am requesting you for your kind attention on a matter of utmost importance regarding the condition of our college building. As you may be aware, the building was constructed back in **1955**, and over the years, it has started to show significant signs of wear and tear.

The aging infrastructure of the building poses several challenges for both students and faculty alike. We have observed issues such as **leaking roofs, deteriorating walls, faulty electrical systems, and inadequate ventilation (Photo attached)**. These problems not only affect the aesthetic appeal of the premises but also compromise the safety and well-being of everyone within the college community.

Given the critical role that our college plays in shaping the future of our students, it is imperative that we provide them with a conducive learning environment. However, the current state of the building hampers our efforts to deliver quality education effectively.

Therefore, I urge you to consider allocating funds for the renovation of our college building as a matter of priority. It is also pertinent to mention here that **NAAC** Peer team is supposed to visit this college in July 2024 for NAAC accreditation and assessment.

Thank you for considering this request. I look forward to your favorable response towards the improvement of our college facilities in student welfare.

Sincerely,

[Dr. Puran Prabha]
